INTRODUCING YOUR CURRICULUM

Joan Shelton, Jerry Midkiff, and R. G. Rowland diagram sentences for English class.

Kenny Price and Bill Newman head for another class after coming from English.

Mrs. Fowler helps a group in English prepare questions.

Language Is The Basis Of Learning

Our English Department offers our students wide and varied experiences in the study of grammar and literature. We are getting away from the idea that grammar is a set of dusty, cut-and-dried rules, but instead we learn that it is a science.

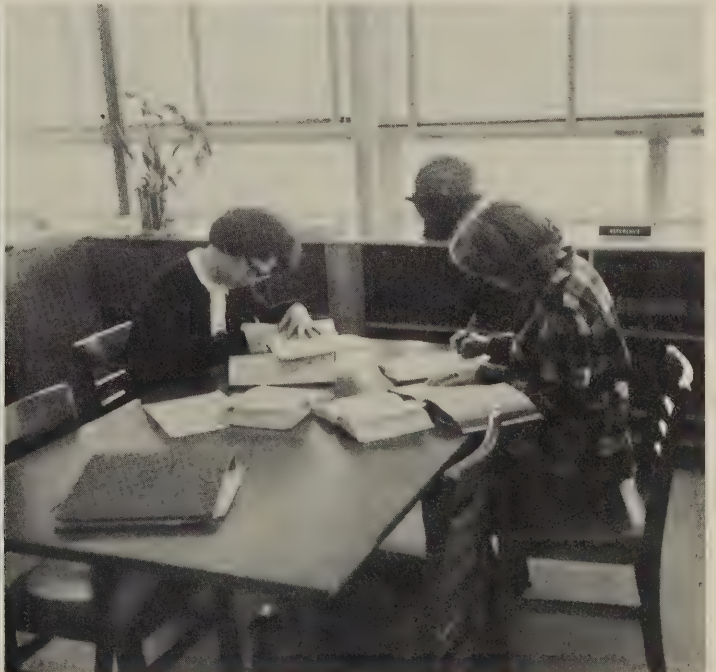

Language is the basis of all learning, therefore we need a thorough knowledge of it so that we may take our places with other educated people.

Since language is the means of most human relationships, then literature is the collection of the best uses of language. In our literature classes the students have an opportunity to become familiar with the many different kinds of literature and they also have an opportunity to read the best books by the best writers.

Bill Mustain is trying to find a book for English.

Pat Shelton and Ava Lee Cocke are hard at work on an English report.

The French students are not only learning to write but to speak French this year. More stress is being put on vocabulary than has been done previously.

Beginning students use the first ten minutes of the class period for various forms of oral work. Second year students enjoy using the new modern language laboratory to improve their speech.

At Christmas Monsieur Brinard from Belgium spoke on French customs. Monsieur Brinard is now associated with Chatham High School.

Some of the activities of the French students this year include sending Christmas cards to the Faith Home and planning a French Banquet in the Spring.

Danny Simpson, Tom Swanson, and Becky Pickeral are hard at work.

French Students Have Lab

Dianne Mayhew, Sherry Love, and Susan Rowland are taping French vocabulary.

Carol Crowder seems to enjoy listening to a French recording.

When our school opened this year, our students had an opportunity to enroll in Latin, a new language for our school.

The Latin classes this year are learning that Latin is far from being a "dead" language, that it still lives in literature, that it has shaped and will continue to shape the thoughts and speech of millions.

Mrs. Angel says that in the Latin Department the objectives are:

1. To teach pupils that an elementary knowledge of Latin will make them secure in their use of English and ensure them against many common errors.
2. To train pupils in accuracy, application, memory and reasoning which make for straight thinking.
3. To help pupils enjoy the fullness and the society and interests of a cultured Roman people.

The students in Latin are planning a spring assembly which will feature phases of Roman life.

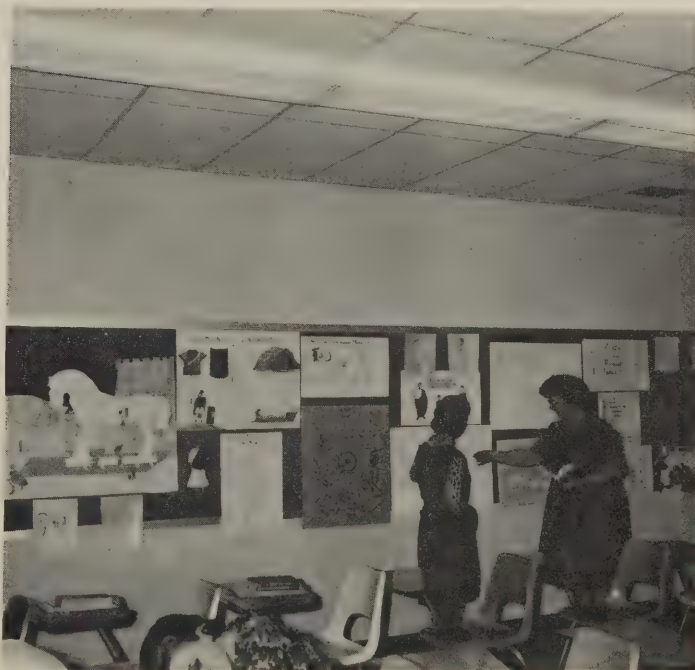

Dianne Mayhew, Patsy Dalton, Martha Dalton, Jimmy Nelson and Janet Keesee are having a panel discussion in Latin.

Latin Is Not Dead

Mrs. Angel and Phyllis Franklin admire the bulletin board while Jenny Payne seems to be taking a rest break.

Judy Blair, Ray Sisk, and Gwen Ingram are looking at some research material for Latin.

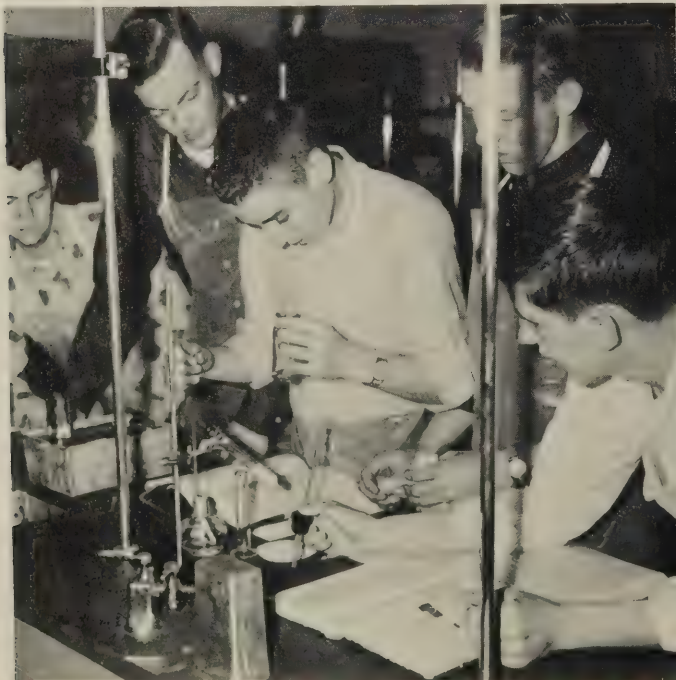

Mr. McKeever listens to his 8th grade science class.

Our science students this year are using new laboratories. The new labs and equipment help increase the students' interests.

Five science courses are offered at GHS this year: 8th Grade Science, General Science, Biology, Chemistry, and Physics. In 8th Grade Science and General Science, students study our environment. Biology students study plant and animal life. In chemistry and physics students increase their scientific knowledge and get valuable training for future careers.

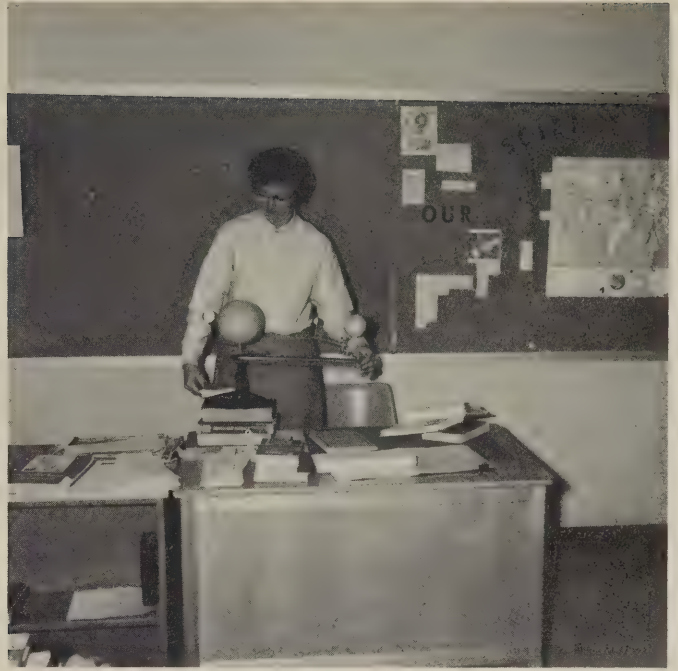

Mike Short, Carol Younger, Johnny Johnson, Carl Simpson, and Roger Newman perform a chemistry experiment.

Glen Crosby and A. C. Orrell dissect frogs in the biology lab.

New Labs Increase Interest

Miss Tyler demonstrates the changing seasons for her class.

Jane Bowen, Mr. McKeever, and Tommy Johnson discuss a lab experiment.

R. G. Rowland, Richard Fratzke, and Kenneth Dalton work in the chemistry lab.

Mr. Fowler points to some mountains for his social studies groups.

Mr. Evans checks over some papers for history.

Social Studies Department Offers An Interrelated Curriculum

Carolyn Kelly and Steve Mann select a book for a research paper.

The Social Studies Department at Gretna High School offers an organized and interrelated curriculum of history, civics, and government. Eighth grade students begin their social studies program with U.S. History, a basic introduction to our country's heritage. In Civics freshmen delve into the mechanics of local and state government. Sophomores obtain international scope of man's cultural and national development in their studies of world history. A more advanced U.S. History course is offered to juniors in preparation for the senior requirement of government.

Members of Gretna High School's Math Department endeavor to show students the practical, as well as the theoretical, side of mathematics. Aware of the dependence on a good mathematical background in today's modern world, the department this year introduced a series of new textbooks which present math studies to the student in a clear and concise method. Through an organized system of study, students become proficient in basic arithmetic, algebra, geometry, and trigonometry.

Mrs. Tyler's solid class studies a geometric figure.

A Good Math Background Is Essential

Mr. Johnson helps Richard Yeatts with an algebra problem.

Mr. Musick shows Joe McKinney a math problem.

Linda Kepley and Janice Oakes study their office practice books.

Gloria Roberts, Betty Anthony, Joyce Roberts, and Ann Johnson receive help from Mrs. Hayes.

Joyce Hudson and Gloria Roberts are busy typing.

Students who take commercial courses in high school often secure jobs immediately after graduation. These courses also help students who plan to enter college because they can use the knowledge for their own personal use.

Commercial courses taught at GHS this year are Typing I and II, bookkeeping, general business, and shorthand. All these courses are excellent training for secretarial jobs. The knowledge of bookkeeping and general business helps students learn to keep neat and accurate personal records. Students can use typing knowledge for such purposes as term papers and business letters, and shorthand may be used for note taking.

Mrs. Pendergrass checks Marsha Bayliss' typing.

Commercial Courses Are Practical

Brenda Dalton, Linda Arrington and Betty Dove are taking shorthand.

Mrs. Hayes helps Connie Creasy and Carolyn Shelton with their bookkeeping.

The Band practices during its class period.

"Action" has been the by-word for the band this year. It has performed at football games, in the Christmas Parade in Chatham, and in the town festival in Gretna. A Christmas concert at GHS and a concert for the elementary students were held. The band also attended the Pittsylvania County Christmas Music Festival and the annual high school band day festivities at the University of Virginia at Charlottesville. In January the band plans to attend the District VI Instrumental Music Festival. For March a spring concert is being planned.

Mr. Swart, the new director, is pleased with the band's progress and is hoping for an even larger band next year.

Band Has New Director

Judith Anthony, Wayne Bailess, Raleigh Bennett, Garet Bosiger, Kenneth Clay, Bennie Dalton, Faye Dalton, Danny Emmett, Richard Fratzke, Ronnie Hagood, Dwight Ingram, Richard Mayhew, Ronnie Menesses, Bill Mustain, Earl Myers, Kieth Pendergrass, Robert Power, Richard Scruggs, Steve Scruggs, W. C. Scruggs, Betty Lou Shelton, Loretta Shelton, Ronnie Smith, Mary Swanson, Roland Worley, Calvin Yeatts.

Officers of the Gretna High School Chorus this year are:

President - Joyce Hudson, Vice President - Martha Mayhew, Secretary - Rosemary Farris, Treasurer - Ava Lee Cocke, Reporter - Barbara Miles.

Activities of the chorus this year include singing at various local churches and at high school assemblies, attending the Pittsylvania County Christmas Festival at Dan River and Christmas caroling in Hurt and Gretna. The Chorus along with the Elementary and High School Bands held its first annual Christmas concert on December 13. The chorus plans to have a spring concert also.

The Chorus sings at school assembly.

Bonnie Collins and Lillian Dalton, a couple of homemakers do housework.

The purpose of homemaking in high schools is to help students to take part in homemaking activities in their parental homes and to prepare for establishing their own homes in the future.

The girls in Mrs. Mann's classes this year are enjoying the new modern equipment in the Home Ec. Department.

Those taking Home Ec. study many phases of home living such as: selecting, preparing, and serving family meals; selecting, caring for, and making clothes; managing the family income; improving housing and home furnishing; and contributing to happy family living.

The girls have home projects which they must turn in during the year and also during the summer.

Home Economics Girls

Mrs. Mann helps Geneieve Taylor with the sewing project.

Shirley Owens takes a pie crust from the oven for Home Ec.

Janice Oakes pins a red rose on Patsy Dalton while Brenda Pippin and Susan Cocke look on.

A group of Home Economics students are studying vacuum cleaner assembly.

Enjoy New Department

Mrs. Mann is busy running off a test for her Home Economics girls.

Geneleve Taylor models her sewing project for the PTA.

Patsy Tucker, Lois Farris and Ann Garby put bandages on Dinah Simpson, Elsie Haley, and Ann Rowland.

The Physical Education Department is proud of its new and better facilities. The students have more activity and work harder this year, but they find their work more pleasant. There is more interest and enthusiasm this year because the dressing rooms are better equipped with lockers and showers. This year there are classrooms for special classes. Eighth Graders have first aid, freshmen have driver's education and sophomores have advanced health. Classes are grouped according to ages.

Members of the Physical Education Department feel handicapped because it has no play area, but they hope to get one in the near future. Meanwhile, the large gym is a benefit.

The students spend 15 minutes of class period on exercise including laps and the rest of the period is spent in various organized activities. Students spend four to five weeks on a single activity and then they switch to others. Activities include relays, volleyball, basketball, marches, and others. On Fridays boys and girls use the gym together for co-recreational activities.

Physical fitness tests show that our students have above average scores.

Phys. Ed. Department Is Proud Of Facilities

Mrs. Moon directs her Phy. Ed. girls in exercises.

Mr. Moon lectures his boy's Health class.

Industrial arts, offering to the student an opportunity to study phases of industrial growth, machines, processes and occupations, is new in the curriculum at Gretna High School. The student's studies include work and experience in wood, electricity, electronics and mechanical drawing.

In industrial arts the student learns by doing. He plans, designs, and constructs his own projects. This enables the student to better select, judge and use products of today.

Opportunities in industrial education are tremendous as can be seen by the fantastic industrial development that has occurred in the United States in recent years.

Training in industrial arts prepares students for future jobs in such a society.

Mr. Taylor lectures his Industrial Arts class.

Opportunities in Industrial Arts are Tremendous

A group of Industrial Arts boys inspect a machine.

Glenn Bowling seems to be enjoying his work.

Mr. Culbertson watches some of the Agriculture students work.

Vocational Agriculture as taught at Gretna High School makes a major contribution to the total school program in preparing boys for careers in our largest industry, agriculture. A vocational agriculture student gets training in the classrooms, in the shop, in the Future Farmer of America organization developing leadership abilities, and on the job learning as he carries out a supervised farming program or a work experience program in an agriculture industry such as feed manufacturing, managing a business serving the farmer, selling farm supplies and many others.

In the classroom a boy studies the newest developments in the field of agriculture both on and off the farm.

Almost half of a boy's time in school is spent in shop where he learns basic skills in the areas of electricity, general metal work, plumbing, sheet metal, woodwork, the principles of engine operation, and operation, care and maintenance of farm machinery.

The supervised farming program and the work experience program are designed to let the student learn by doing.

This department also sponsors several adult programs which gives many farmers an opportunity to receive further training and to keep up with the news in Agriculture.

Vocational Agriculture Trains Students

Kenneth Dalton works with wood in class.

Mr. Culbertson lectures his classes.

STRENGTHENING MY EDUCATION FOR FUTURE ROLES was the F.H.A. prospect for the year. To carry out this project, the monthly meetings were centered around the importance of staying in school and receiving a good education. The girls were kept busy all year by the many club activities. During the fall, several of the girls modeled outfits at the fair. Wrapped packages were distributed at Christmas to needy families. A tape of Dr. Evenly Millis Duvall's speech at the State Convention was on the program for the January meeting. In February an assembly in which Mrs. Nell Griffin of Longwood College spoke on the preparation for tomorrow was sponsored by F.H.A. With the coming of spring, the girls began making plans for the annual F.H.A.-F. F.A. Banquet and the P.T.A. fashion show.

Butch Cocke, a senior, played defensive end for the Hawks this season.

With a light-weight team coach McKeever and coach Musick worked to make a team the fans very enthusiastically supported and followed. The Hawks had a 3-7 record for the season. Their major win was over Appomattox, a favored winner in the district. This was Gretna's first defeat over the Rebels in the school's history. We also won over Dan River and had a run-away victory over Hargrave's J.V.

The season ended with a successful sock-hop after our last game with the football team and cheerleaders being honored by faculty and students.

Gretna Fights To Win Place in District

The boys team made a fine showing this year as defending champs of the district. They held a 4-8 record and proved to be a hard team to beat. Most of the eight losses were only by five points or less. Doug McKinney led the Hawks scoring attack. He led the county in scoring and held second in the district. Wayne Short, another senior, was in on many rebounds for the Hawks while Jimmy Simpson played his first year with the varsity team. We would like very much to see our boys at the top again, but this hope will be known after the annual has gone to press and we can only say "good luck".

Linda Kepley makes lay-up to add 2 more points against Whitmell.

The girls coached by Mrs. Jeanette Moon showed a fine season. They have lost only two games up to the present date and we're all hoping they will win championships in the county and district tournaments. Linda Kepley and L. V. Bolling are the only two seniors on the team. Linda is high scorer for the team and ranks in the county's top ten scorers. The Gretna Hens played some fine ball and displayed excellent sportsmanship. We say congratulations and the school is proud of you.

Cheerleaders Of GHS Work For Sportsmanship

The cheerleading squad at Gretna is composed of 8 regular girls and 2 alternates. These are ten very devoted girls who work hard and support our teams to the end. They follow the team to all their games and are constant with their support. Cheerleaders are sometimes called "ambassadors of sportsmanship" along with all the other things expected of them. Mrs. Moon sponsors the cheerleaders and works with them in order to help them try to achieve perfection.
